

MEND TEA MEDIA KIT

SIMPLE TO SIP

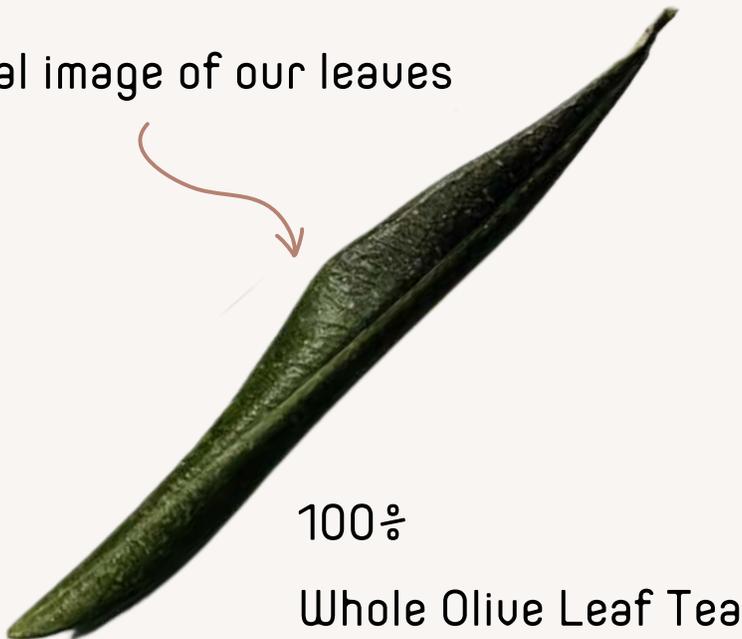

Mend Tea is a single origin premium whole olive leaf tea from Sicily. ←

CURATED PREMIUM LEAVES:

Single origin tea is tea that comes from a single territory and harvest, with no added flavors or blends. These 100 percent olive leaf tea leaves are unmatched in flavor and consistency. The earthy flavor of Mend Tea indicates balance and richness with hints of umami and a smooth mouth feel from pure olive leaf with no fillers. Olive Leaf Tea has a very mellow and pleasant taste and is very different from other teas. If comparison needed to be made to something familiar, it could be compared to a very light green tea, but with a very pleasurable and pronounced natural flavor. Mend Tea's purpose is to encourage healing with each sip.

WELLNESS:

*Mend Tea is only made from whole olive leaves grown in the sunbathed Italian foothills and comprises of vital vitamins, minerals, and micronutrients. Olive leaves contain a substance called oleuropein, which is thought to help reduce cholesterol levels and inflammation. Laboratory studies found that olive leaf can kill a number of microorganisms including yeasts, bacteria, and fungi. It was also shown to have anticancer effects, but human studies are needed. **

PRODUCED IN EUROPE:

Mend Tea is a tea made from the sun-dried leaves of the olive tree. This style of tea has been consumed for hundreds of years in Mediterranean countries, where they believed it has many health benefits. Grown in Monreale, Sicily. Monreale is a town and commune in the Metropolitan City of Palermo, in Sicily, southern Italy. It is located on the slope of Monte Caputo, overlooking the very fertile valley called "La Conca d'oro", a production area of orange, olive, and almond trees. They have taken this trusted product, olive leaf tea, and crafted a modest simple to sip single origin premium whole olive leaf tea from Sicily called Mend Tea.

ECO-FRIENDLY:

Mend Tea comes from dry farmed olive trees, which allows for cultivation without supplemental irrigation. Protecting the water supply while providing a superior product. Mend Tea is sourced and grown at family-run and ecologically minded farms in Sicily. We work with agriculturalists to select only premium complete leaves for Mend Tea, optimizing taste as well as nutrient density. It is 100% natural and vegan friendly.

SIMPE TO SIP

What is olive leaf tea good for?

Olive leaf tea may have several potential health benefits, such as helping to lower blood pressure, lower cholesterol, help prevent weight gain, protect against heart disease, help protect against some cancers and decrease someone's risk of developing type 2 diabetes.

The olive leaves contain high amounts of polyphenols, most importantly oleacein, oleuropein and hydroxytyrosol.

See the [Research](https://sicilianoliveleaftea.com/research/) page (<https://sicilianoliveleaftea.com/research/>) for more specific information on the mechanisms for these potential health benefits.

Does Mend Tea (or any olive leaf tea) have caffeine?

No. Mend Tea does not have any caffeine, which is welcome news to people who are trying to go caffeine free but still want flavor and those who are sensitive to the effects of caffeine. This also means it is an excellent choice of beverage before going to sleep.

Why should I use Mend Tea versus an extract?

There are several reasons why Mend Tea is superior to extracts. The most important reason is taste. Mend Tea is a whole leaf olive leaf tea that was designed to be enjoyed like any other cup of tea. Almost as important is what goes into Mend Tea, which is 100% whole olive leaves from Sicily, Italy. Our 100+ year old olive trees have developed antioxidants, vitamins, minerals and polyphenols to protect itself against the intense Sicilian summer sun, chilly Mediterranean winters and drought. With an extract you may not be getting those additional benefits.

Is olive leaf tea good for the lungs?

At least one study.

(<https://pubs.acs.org/doi/full/10.1021/acs.jafc.8b01808>) has found that orally consuming oleuropein from powdered olive leaves reduced the airway influx of eosinophils and lymphocytes as well as IL-4 secretion in lung promoted by OVA inhalation or CS. In addition, oleuropein suppressed infiltration of macrophages and neutrophils through blocking OVA inhalation- and CS-promoted induction of ICAM-1, F4/80, CD68, and CD11b in airways. The researchers concluded that this may be a promising anti-inflammatory agent for asthma and COPD. This product has not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure, or prevent any disease.

How long does it take for olive leaf tea to work?

Research has shown that the phenolic compounds from olive leaves are highly bioavailable. The absorption of ligistroside-aglycone, hydroxytyrosol, tyrosol and oleuropein-aglycone was 55-60% in human subjects. In animal studies, these compounds have found their way various tissues in between 1 and 4 hours but it may take up to 2 days in humans.

Can I drink olive leaf tea everyday?

There are no official guidelines on how much olive leaf tea a person should drink everyday. In most human studies, participants consumed 500mg olive leaf tea twice a day. You should always speak with your doctor before using anything to treat a specific condition as this product has not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure, or prevent any disease
